

Who we are...

YOUR COMPUTER PROFESSIONALS

In business since 1980, ECS is a full-service computer company, providing for all your computer needs. We specialize in both LAN & WAN Networking and are one of the few companies capable of providing you with both hardware and software support from one central location. Our knowledgeable staff can also help develop any custom software that you may require. In addition, many of our clients utilize our experienced Staff to help support their Specialized Software; such famous names as Medisoft, Practice Partner, Tops2000, DENTRIX®, Peachtree, Lytec, Timberline, QuickBooks® Pathlinks®, Accu-max, and many others.

Your business is extremely important, and your computer system is vital. When support is needed, we can provide help immediately, over our Remote Support lines. ECS is your assurance that your business will never come to a stop because of your computer system.

Quality Equipment, Software, Service and Support are the most important factors when selecting a computer. The best way to evaluate a computer system, and the company behind it, is to talk with people who have one. Take advantage of our ECS referral list and speak to a few of our customers.

Our customers are our best salespeople!

What we can do for you...

✓ **HELP DETERMINE YOUR NEEDS**

Before ECS quotes you a new computer system, we always do our homework. We perform a needs analysis to determine the hardware and software that will best meet your requirements. Then, once your new system is installed we are here to support you so you get a return on your investment as soon as possible.

✓ **NEW COMPUTER HARDWARE**

If you have the software you need or know what you want, but do not have the proper hardware to run it, ECS can provide you with the latest in quality equipment and Networking to get the results you desire.

✓ **UPGRADE YOUR EXISTING SYSTEM**

Expanding your existing system does not always mean replacement. Most often it means simply upgrading your current system by adding new and/or improved hardware and/or software to meet your changing requirements. ECS would be pleased to evaluate your present system and recommend the proper upgrade path to **meet your growing needs.**

✓ **SERVICE & SUPPORT**

No matter where you got your computer, you will need professional service and support to get the most out of it. ECS can offer you a Service Contract, which is the best method to keep your system up and running. However, if your needs are best served on a call for service basis, the experienced personnel at ECS will be happy to provide you with quality service and support whenever required.

✓ **VIRUS, ADWARE & SPYWARE**

Did you know that when a PC is infected with spyware that every keystroke could be recorded or monitored by the people or companies that have secretly installed software on your PC? The consequences of spyware and adware infections can include banking & identity theft, computer problems, slow Internet access & many other unusual problems. ECS can help.

✓ **SOFTWARE**

If you already own a computer system, but are not receiving the full benefits because you do not have the proper software, ECS can supply you with the software that will provide you with the most **Cost-Effective** results. Whether it is Off-the-Shelf like QuickBooks® or Custom programs, ECS will find the correct solution for you.

✓ **WEB SITE DESIGN & HOSTING**

ECS can also provide you with a strong presence on the **INTERNET**, including Exciting designs of Product and Services presentation, also Secure On-Line Order Entry & many other unique methods of doing business that yields a profit in the world of **Electronic Commerce.**

✓ **CONSULTING SERVICES**

If you would like to get sound advice from computer professionals with many years experience designing systems for all sizes and types of business, call ECS. We will be happy to work with you and your staff to find the **right solution** for your business. Just another way we can help improve your bottom line!
